

Maritim Catering

Eventwerk Dresden

Used as an ordnance factory in the First World War and later home to the city's aircraft manufacturing facilities, the industrial character of the building has been kept intact to create a unique venue for unforgettable events. Continually affording visitors new perspectives, the gallery levels are particularly impressive. Three areas can be booked separately or utilised as a whole, providing organisers with lots of leeway when it comes to setting individualised, theme-oriented scenes. Through a series of spectacular events held by renowned companies in recent years, the Eventwerk has earned itself a reputation as one of Dresden's top locations.
