

Quality label „Wanderbares Deutschland“

In 2013, the Hotel was awarded the “Qualitätsgastgeber Wanderbares Deutschland” label. Since 2005, as part of its drive towards higher quality standards, the German national ramblers’ association has awarded this label, the only national and tested label of its kind, to particularly rambler-friendly accommodation establishments. In this way, accommodation and restaurants that are particularly rambler-friendly will be identified, through competent partners in the various regions.

Quality label „Biker friendly hotel“

In June 2012, the Maritim Hotel Königswinter was the second hotel in North Rhine-Westphalia (NRW) to receive the “Biker-friendly hotel” quality label. Before granting the certification, the German national automobile association in NRW, together with the national hotel and guest house association, put the establishment through numerous tests.

The goal of the scheme is to make companies with facilities and services specifically targeted towards bikers recognisable at a glance and thus provide bikers with valuable guidance.
